killing swine

Macbeth, the True Story
by Neil Arksey

killing swine

A darkly twisting tale centred around the power hungry couple at the throbbing heart of Shakespeare's bloodiest play - Macbeth. Peeling back the layers, Killing Swine examines their extraordinary partnership through the eyes of the one individual who knew them and their deepest secrets better than anyone else - Lady Macbeth's maid. She concludes that something is missing: the story as presented by Shakespeare does not add up. Part investigation, part performance, part confession, Killing Swine examines and re-interprets the facts at the heart of Macbeth, giving fresh insights into the plot and characters that are both entertaining and revelatory.

Performed by Sasha Mazzotti
Directed by Claudio Schenardi
Costume by Judith Kolb
Produced by Heini Weber
